 Subject: New Mars Mission Idea Aims for Lower Costs
 Ref: Space News February 15, 1993 p2

        NASA is considering making its Mars mission proposal cheaper
   and faster. A proposal calling for the creation of fuel from the
   atmosphere of Mars is included in the plans for a human exploration
   of the planet. A longer exploration period and a slower
   interplanteary speed are involved in the proposal.

 John C. Bessant, Houston, Texas, USA
